

### SUBJECT: LINK Paratransit Executive Summary Report - October 2023

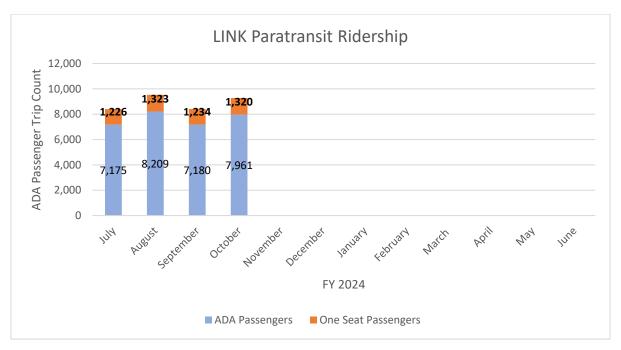

#### **Background:**

County Connection provides Americans with Disabilities Act (ADA) Paratransit services through the LINK Paratransit program. This is a summary report of LINK Paratransit services provided for the month of October 2023.

#### **October 2023 Performance Report:**

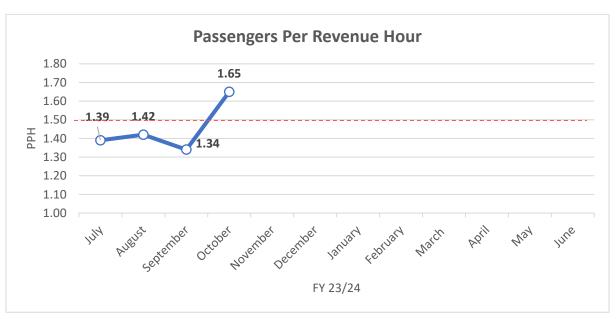

#### **Ridership:**

The total reported number of ADA passenger trips in October was 9,281. September reported a total of 8,414. The increase is primarily attributed to several adult day programs returning to operation after several COVID-related shutdowns spanning anywhere from 1-2 weeks. The total reported number of ADA Passengers reported in October of 2023 accounts for approximately 80% of pre-pandemic ridership levels (October 2019).

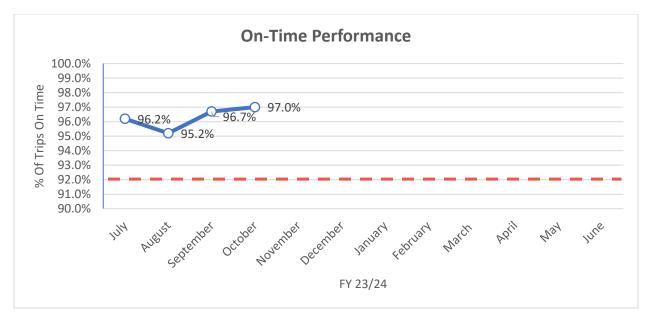

## Productivity:

In October, the average number of ADA passengers per revenue hour stood at 1.65, marking a sharp increase compared to September, when the figure was 1.34 ADA passengers per revenue hour, excluding escorts or attendants. It's worth noting that the LINK Paratransit service's established benchmark is to uphold a minimum of 1.50 ADA passengers per revenue hour. Currently, the contractor has continued working on scheduling efficiencies through providing more comprehensive training to scheduling staff and input gathering from operators on areas for improvement in route efficiencies.

# On-time Performance:

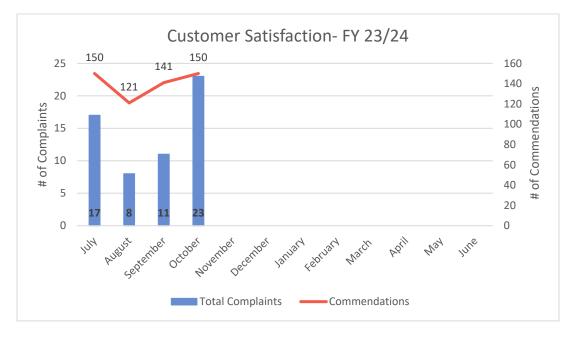

In the month of October, the average on-time performance for trips reached an impressive 97.0%. This figure signifies an improvement in on-time performance when compared to the preceding month, which achieved a 96.7% on-time rate for all trips. The performance exhibited in October signifies a positive trajectory, aligning with the commitment to service quality. It's noteworthy that County Connection's established standard stands at 92%, and the past four months have consistently demonstrated performance surpassing this benchmark.

# Customer Satisfaction:

In October, a total of 23 complaints were registered, with 15 linked to timeliness issues, four (4) related to driver's skill, two (2), related to the vehicle and/or associated equipment, and the remaining two (2) attributed to scheduling staff's skill concerns. The majority of the complaints this month were related to timeliness in arriving to the destination.

For commendations, the service received a total of 150 in October. The majority of these commendations come from passengers expressing satisfaction with the drivers' performance, often citing their exemplary attention to safety and courtesy.

# Safety:

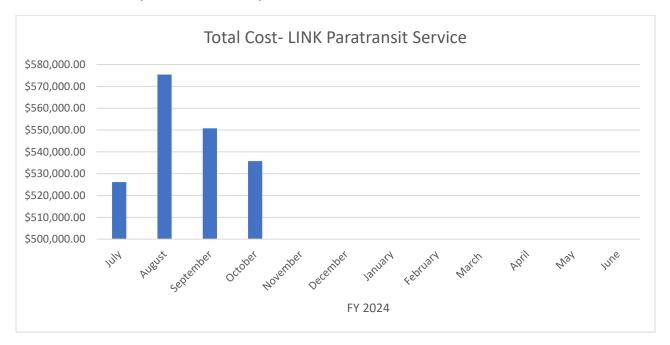

There were no reported preventable accidents in the month of October. The accident standard goal is to have no more than 0.5 preventable accidents per 100,000 miles.

# Staffing:

For the month of October, LINK Paratransit had a total of 52 drivers available to operate routes. Out of this group, five (4) drivers were on a leave of absence or on modified work duty. In response to the ongoing need for an expanded driver pool to accommodate both current and anticipated increases in ridership, Transdev has continued to implement various strategies including organizing on-site job fairs, offering sign-on bonuses and referral bonuses, and providing on-site training to assist newly hired Class C drivers in obtaining their commercial license with passenger endorsements.

## **Financial Implications:**

A preliminary un-audited total of \$535,772 was spent in October for LINK paratransit service. This reflects a decrease from September's total reported at \$555,772.

### **Recommendation:**

None, for Information only.

# Additional updates:

None.

### **Action Requested:**

None, for information only.
