SUBJECT: Restructuring Advisory Committees

SUMMARY OF ISSUES:

In February the Board of Directors voted to combine the two advisory committees, and to have this committee meet every other month.

The General Manager asked staff to arrange a combined meeting to take place in early April to discuss the committee structure, focus, agenda items, and meeting time and location.

Staff genuinely wishes that current members will embrace the opportunity to learn more about the important transportation needs of our senior and disabled population and remain active in the new and improved advisory committee.

Staff hopes to have several dates and times for consideration at the time of the CAC meeting on March 15, 2011.
