Qualifications for appointment or reasons for application

My experience as a contractor helps qualify me for this appointment because

- As a specialist in accessibility i listen to the needs of my client and design a course of action to address their needs.
- As a remodeler I am experienced in communicating with people during stressful times and being flexible to change either from job conditions or client needs.
- As a perfectionist I am always looking for the best possible solution but as a realist I understand that resources often define the parameters of service.

(over)

My experience as a" Pleasant Hill Senior Van Driver" helps me for this appointment because

- I believe access to public transportation is vital for those who don't drive to remain independent and I support that belief as a volunteer driver.
- I see firsthand the struggles of seniors and I am passionate about helping those with special needs so equal access can be achieved by all.

The following local residents are qualified to comment on my capabilities. (Include at least two individuals who are not connected officially with the City of Martinez.)
