SUBJECT: Investment Policy

Summary of Issues:

On September 12, 2012, CCCTA last adopted its Statement of Investment Policy (Resolution No. 2013-009) in accordance with California Government Code Section 53646.

Previously, the Board had reviewed and approved the Statement of Investment Policy triennially and made changes when required by California Government Code. Staff now recommends that the Statement of Investment Policy be updated to require that the Board of Directors review the Policy annually. The update is suggested because the law authorizes the Board to delegate its investment authority for only a one-year period, which must be renewed by the Board each subsequent year. Given the Board must annually delegate the authority, it is suggested that the Board also use that opportunity to review the Investment Policy and provide updates if necessary.

There have been no substantive changes in the law affecting County Connection's investment policy. Changes have been made to the attached Statement of Investment Policy to require annual review by the Board of Directors and to make minor, non-substantive corrections.

Recommendation:

The Administration and Finance Committee recommends that the Board of Directors adopt the updated Statement of Investment Policy for one year until September 30, 2016.

SUBJECT: Statement of Investment Policy

PURPOSE: This Statement provides guidelines for the prudent investment and cash management of the Authority's funds.

OBJECTIVE: The Authority's cash management system is designed to monitor and forecast accurately expenditures and revenues, thus enabling the Authority to invest funds to the fullest extent possible. The Authority's primary objective is to safeguard the principal of the funds; the second objective is to meet the liquidity needs of the Authority; and the third objective is to achieve a return on the invested funds.

POLICY: This policy shall apply to all public funds held by the Authority. At all times, the Authority shall invest its funds in accordance with the rules and restrictions established by the laws of the State of California (Government Code Sections 53600 *et. seq.*). The Authority shall conduct its investments under the "prudent investor standard": "When investing, reinvesting, purchasing, acquiring, exchanging, selling and managing public funds, a trustee shall act with care, skill, prudence and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency." (California Government Code Section 53600.3)

The General Manager of the Authority shall serve as the Authority's trustee for purposes of placing investments pursuant to this Policy. The Policy shall be reviewed annually by the Authority's Board of Directors at a public meeting. (California Government Code Section 53646(a))

1. Criteria for Selecting Investments. Criteria for selecting investments and the order of priority are:
 - a. Safety. The safety risk associated with an investment refers to the potential loss of principal, interest, or a combination of these amounts. The Authority shall operate only in those investments that are allowable under Section 6 below.
 - b. Liquidity. An adequate percentage of the portfolio should be maintained in liquid, short-term investments, which can be converted to cash if necessary to meet disbursement requirements. A short-term investment is defined as any investment, which matures within a one-year period.
 - c. Yield. Yield becomes a consideration only after the basic requirements of safety and liquidity have been met.
2. Delivery of Securities. Securities shall be delivered by book entry, physical delivery, or by third-party custodial agreement. (California Government Code Section 53601)
3. Diversification. The portfolio should consist of a mix of authorized types of investments described in this Policy. As a general rule, long-term maturities should not represent a significant percentage of the total portfolio, as the principal risk involved can outweigh the potential for higher earnings. With the exception of investments in the California State Local Agency Investment Fund, no more than

fifty percent (50%) of the Authority's portfolio shall be deposited or invested in a single security type or with a single financial institution.

4. Terms of Investments. No investment shall be made in a security with a term remaining to maturity in excess of five years. (California Government Code Section 53601)
5. Deposit of Funds. All money belonging to or in the custody of the Authority, including money paid to the Authority to pay the principal, interest or penalties of bonds, shall be deposited for safekeeping in state or national banks, savings associations or federal associations, credit unions or federally insured industrial loan companies in California (as defined by California Government Code Section 53630); unless otherwise invested pursuant to Sections 6 and 7 of this Policy.

Pursuant to California Government Code Sections 53635, 53637 and 53638, the money shall be deposited in any authorized depository with the objective of realizing maximum return, consistent with prudent financial management.

Pursuant to California Government Code Section 53638, the maximum deposit shall not exceed the shareholder's equity in any depository bank; to the total net worth of any depository savings association; or the total or unimpaired capital and surplus of any credit union or industrial loan company.

6. Allowable Investment Instruments. With prior Board approval, the Authority may invest in any of the investment instruments authorized by the California Government Code, subject to any conditions set forth in the California Government Code. Without prior Board approval, the General Manager shall limit the investment instruments utilized to the following:
 - a. United States Treasury notes, bonds, bills, or certificates of indebtedness, or those for which the faith and credit of the United States are pledged for the payment of principal and interest.
 - b. Negotiable certificates of deposit issued by a nationally or state-chartered bank of a state or federal association (as defined by California Financial Code Section 5102) or by a state-licensed branch of a foreign bank. Purchases of negotiable certificates of deposit may not exceed thirty percent (30%) of the Authority's surplus funds to be invested. The maximum investment in a certificate of deposit shall not exceed the shareholder's equity in any depository bank; the total net worth of any depository savings association; or the total or unimpaired capital and surplus of any credit union or industrial loan company.
7. Local Agency Investment Fund. In addition to the investment instruments set forth in Section 6, the General Manager may invest Authority funds in the Local Agency Investment Fund pursuant to California Government Code Section 16429.1.
8. Prohibited Investments. The Authority shall not invest any funds in inverse floaters, range notes, or interest-only strips that are derived from a pool of mortgages. The Authority shall not invest any funds in any security that could result in zero interest accrual if held to maturity. The limitation does not apply to investments in shares of beneficial interest issued by diversified management companies as set forth in California Government Code Section 53601.6.

REPORTING: At least quarterly, the General Manager shall submit an investment report to the Board of Directors within thirty (30) days of the end of the quarter. The report shall include the following information:

1. Type of investment, issuer, date of maturity, par and dollar amount invested in all securities, investments, and money held by the Authority;
2. Description of any of the Authority's funds, investments, or programs that are under the management of contracted parties, including lending programs;
3. For all securities held by the Authority or under management by any outside party that is not a local agency or the State of California Local Agency Investment Fund, a current market value as of the date of the report and the source of this valuation;
4. Statement that the portfolio complies with the Investment Policy or the manner in which the portfolio is not in compliance; and
5. Statement that the Authority has the ability to meet its pool's expenditure requirements (cash flow) for the next six months or provide an explanation as to why sufficient money shall or may not be available.

If the Authority places all of its investments in the Local Agency Investment Fund, Federal Deposit Insurance Corporation-insured accounts in a bank or savings and loan association or county investment pool (or any combination of these three), the General Manager can simply submit, on at least a quarterly basis, the most recent statements from these institutions to meet the requirements of items 1-3 above, with a supplemental report addressing Items 4 and 5 above.
