Summary Minutes
Operations & Scheduling Committee
Supervisor Andersen's Office
3338 Mt. Diablo Blvd.
Lafayette, CA
Friday, December 6, 8:15 a.m.

Directors: Dave Hudson, Robert Storer, Kevin Wilk

Staff: Rick Ramacier, Bill Churchill, Ruby Horta, Rashida Kamara, Melody Reebs

Public: None

Call to Order: Meeting called to order at 8:16 a.m. by Director Storer.

1. Approval of Agenda

The Committee approved the agenda.

2. Public Communication

None

3. Approval of Minutes of November 6, 2019

The Committee approved the minutes.

4. MTC Onboard Passenger Survey

Ms. Reebs presented a summary of the results from the recent onboard passenger survey conducted by MTC. She noted that over 1,000 survey responses were collected, representing about 9% of weekday ridership. Director Storer asked if there were any surprises with the results. Ms. Reebs responded that the trip origins and destinations are particularly insightful and that the number of trips starting and ending within the service area was higher than expected. Director Hudson expressed interest in knowing out how many riders receive employer subsidies for transit.

5. Paratransit Contractor Transition Update

Ms. Kamara informed the Committee of some of the changes that have occurred since the transition of paratransit operations to a new contractor, Transdev, including an increase in training and wages for drivers, call center staff, and dispatchers. These changes have resulted in an increase in service quality, including better on-time performance. Staff also recently launched a new smartphone app that allows users to monitor the status of their trips in real time and provide a rating and feedback at the end of their trip. Ms. Kamara demonstrated the dashboard that staff uses to monitor and follow up on feedback received. Director Wilk asked whether poor ratings that were made unintentionally can be corrected after the fact. Ms. Kamara responded that it currently is not possible, but staff

can explore the possibility with Transdev. Director Storer asked if the new wages began with the start of the new contract with Transdev. Ms. Kamara replied that First Transit had actually raised wages prior to the end of the previous contract in an effort to improve service performance.

6. Monthly Reports

Ms. Horta reported that ridership was up in October compared to the previous year and even when excluding the BART bus bridges, productivity was up to over 17 passengers per hour, which is the first time that County Connection's productivity standard has been met in several years. She noted that the most significant increases in productivity were on the Monument corridor routes that were made free starting in July.

7. Committee Comments

None.

8. Future Agenda Items

None.

9. Next Scheduled Meeting

The next meeting was scheduled for January 3rd at 8:15 a.m. at 3338 Mt. Diablo Blvd.

10. Adjournment – The meeting was adjourned at 9:18 a.m.

SUBJECT: Early Bird Express Update

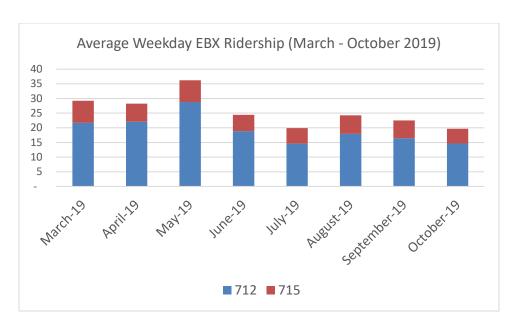

Background:

At the November 2018 Board meeting, the Board authorized the General Manager to enter into an agreement with BART to provide early morning bus service. The service started in February 2019 and is expected to last for three and a half years. BART's weekday service was cut back in order for BART to conduct needed long-term maintenance on the Transbay Tube. Many transit agencies throughout BART's service area are part of the "Early Bird Express" (EBX) service set in place to cover the transit needs of early morning BART passengers in the 4am to 5am hour.

Update on Early Bird Routes 712 and 715

For County Connection's summer bid, starting on June 9th, BART requested two changes to the existing early bird service. For Route 712 (Bay Point BART to 20th St and Telegraph Ave in Oakland via Pleasant Hill BART), BART requested to cancel the 4:20am trip, and requested a new trip earlier at 3:50am. This change altered our span of service, which required dispatch to open 15 minutes earlier at 2:45am. For Route 715 (service from North Concord BART to Lafayette stopping at all BART stations along the way) BART requested to end the route at Walnut Creek, due to low ridership to Lafayette. The goal was to provide a timed transfer from Tri-Delta's early bird express, Route 709.

The table on the next page has ridership information starting in March, the first full month of EBX 700s service. Ridership was steadily increasing until the month of June. Given that these are solely BART passengers, staff has not conducted an in-depth analysis regarding the ridership decline. Staff will continue to work with BART and adjust schedules as needed.

Financial Implications:

All costs associated with operating the service are paid for by BART.

SUBJECT: Ridership Update

Background:

County Connection staff prepared a Comprehensive Operational Analysis (COA), which was completed in January 2018. The COA provided staff with the foundation for a data-driven planning effort to restructure County Connection's service focused on increased ridership. Since January 2018, the Board approved a major service change which was implemented in March 2019. The service change included cuts, adjustments and enhancements throughout the service area. Subsequently, a minor service change was implemented in Fall 2019, to routes serving Bishop Ranch.

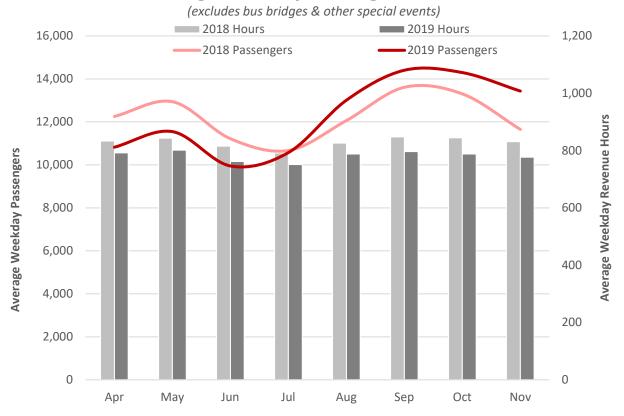

Overall Trends

Service changes typically require a couple of years to realize the full effects, whether positive or negative. Staff anticipated a reduction in ridership given the reduction in overall service hours. Although service was increased along certain routes, potential new riders require various levels of persuasion try the new service. However, over the last several months, routes with increased service have gained additional ridership.

The following analysis compares 2018 to 2019 from April – November. It should be noted that in addition to the service changes that went into effect in March 2019, three (3) routes serving the Monument Corridor offer free fares since July 2019. The data demonstrates a significant shift in the ridership trend (starting July 2019), despite the reduction in revenue hours.

The chart on the next page compares average weekday passengers and revenue hours. Staff has excluded bus bridges and other special events to depict solely County Connection passengers. From April to June, ridership continued to decline, year over year. However, starting in July 2019, the trend has shifted and although revenue hours have not increased, ridership was about 11 percent higher in November 2019, when compared to the same month last year.

Average Weekday Passengers & Hours

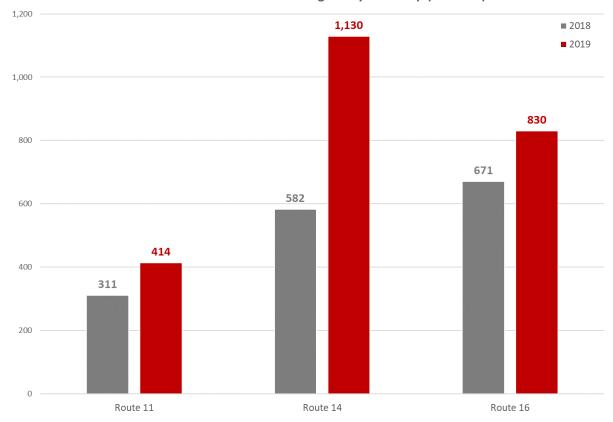

There are several positive results from the service restructure, however, the most impactful variable (within a short time frame) has been the Monument Corridor Free Fares Pilot, funded by the State's Cap and Trade grant under the Low Carbon Transit Operations Program (LCTOP). Some of those positive results, outside of the LCTOP sponsored routes include increased productivity on routes 1, 7, 9, 10, 20, 91X, 99X and 320 and increased ridership on routes 6 and 35. On the flip side, about half of the weekend routes experienced a decrease in ridership. Additionally, routes like 15 and 28 were altered to allow other routes to cover certain segments more effectively, and thus have declining ridership. Route 15 no longer serves a segment between Pleasant Hill BART and Walnut Creek BART and Route 28 no longer serves the Homeless Shelter on Arnold Industrial Way. Route 14 was extended to Walnut Creek BART to better connect passengers from the Monument Corridor and Route 27 connects the Homeless Shelter to North Concord BART. While some routes are still experiencing declines in ridership, the trend is slowing down, and in some cases has even become positive in the last few months.

Monument Corridor – Free Fares

The three LCTOP-sponsored routes include routes 11, 14 and 16. They have been offering free trips since July 2019. Year-over-year, combined ridership (for the months of July through November) on these three routes has increased from approximately 1,500 in 2018 to 2,300 in 2019. That's more than 50 percent increase, over a 5-month period.

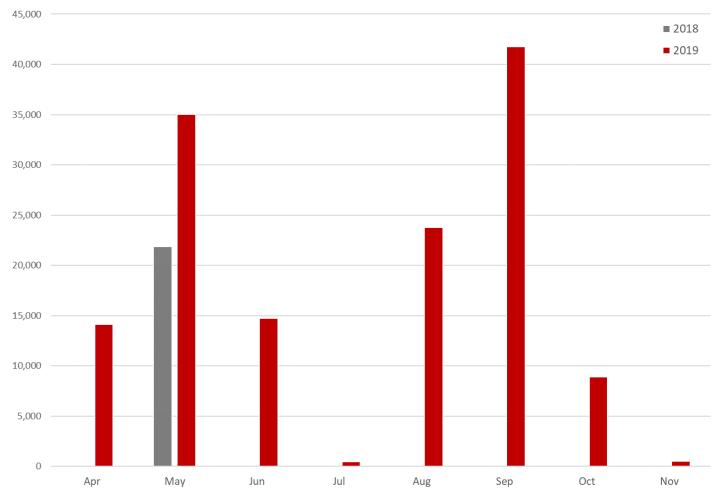

Monument Free Routes - Average Daily Ridership (Jul - Nov)

BART Bus Bridges:

County Connection has operated bus bridges on behalf of BART for many years. Traditionally, bus bridges occurred in case of emergencies when BART service was interrupted for an extended period. Starting in 2019, BART began scheduling several maintenance projects on their tracks, which required working with transit agencies to operate bus bridges. For County Connection, the bus bridges in 2019 represent a significant boost to ridership. From April to November of 2018, BART bus bridges accounted for a little over 20,000 passengers. This was for a single bus bridge in May 2018. During the same period in 2019, County Connection carried close to 140,000 passengers, with bus bridges every month, from April to November.

BART Bus Bridge Monthly Ridership (Apr - Nov)

Next Steps:

The analysis above, though relatively preliminary, provides staff with initial guidance on potential areas for improvement. Weekend routes and routes that offer infrequent service should be further analyzed. Additionally, the one-year LCTOP pilot expires in June 2020, and although additional funding will be available, staff must ensure federal regulations (Title VI) will not be violated if we extend the program beyond the one-year pilot.

SUBJECT: Update on Citizens' Advisory Committee (CAC)

Background:

The current County Connection Citizens' Advisory Committee (CAC) was formed in 2011 when the original Citizens' Advisory Committee and the Accessible Services Committee (ASC) were combined into one committee. This committee has struggled to be effective in part due to a number of vacant positions making it difficult to attain a quorum for scheduled meetings.

Last spring the O&S Committee requested staff to contact the clerks for each jurisdiction representing vacant CAC positions to encourage more appointments to the committee. In May of 2019 there were only four committee members but over the last six months an additional four members have been added as well as an additional alternate providing a total of nine committee members today. The additional members should have a significant impact on improving the effectiveness of the committee. Staff will continue to reach out to the remaining four jurisdictions without a representative.

At the December 2019 Board of Directors meeting staff was directed to work with the O&S committee to continue to find ways to get the CAC engaged and effective. The Board further requested staff to provide the full board as well as each member jurisdiction with a CAC attendance reports. Additionally, the Board suggested staff consider different meeting times/days that may be more conducive to attendance and requested the committee present their thoughts and ideas to the Board.

Financial Implications:

None.

Recommendation:

Staff is bringing this item to the committee to for a robust discussion on continued efforts to help make the CAC more effective and valuable for the Board and Authority.
