ADDENDUM #6

ISSUED March 11, 2022

Clarification of Insurance Requirements for County Connection Link and LAVTA Wheels Service

County Connection will only contract with one vendor and the contract has indemnification and insurance clauses applicable to that vendor only. As the insurance provision states, the Contractor is responsible for compliance with the insurance program. And, to the extent that any subcontractor is not able to meet the \$10M requirement, the Contractor will need to cover the shortfall of its subcontractor. As long as the Contractor understands the coverage requirements, it may engage a subcontractor with lower insurance coverage.
